**To Whom It May Concern**

**Re: Robert and Bernadette Dee**

Robert and Bernadette cared for our house for approximately two weeks in March 2008.

Our primary concern was care of our pet birds and Robert and Bernadette went to great lengths to ensure the birds' normal daily routine was disrupted as little as possible. They were extremely professional in their approach to the job and left the house and garden immaculate.

I would have no hesitation in recommending their services and would be pleased to provide further information if required.
