

Triple Sump RO Filter Changes

First Housing

10PF20 – 10" washable pleated filter, 20 micron
Purpose - traps visible particulate (dust, pollen, sand, hair, etc.).

- Remove and wash when visibly dirty.
- Replace when pleats start looking worn and "tattered".

Second Housing

10GX01 – 10" Hytrex depth filter, 1 micron
Purpose - traps microscopic particulate in the water

- Replace when colour looks like that of varnished pine or a deeper colour.

Third Sump

10TGAC (S) – 10" Testa granular activated carbon (w/Silver)
Purpose - for removing organics, Boron and Nitrates

- Replace annually.

Top Filter

OT28 – Ompipure ROT28 in-line filter
Purpose - high quality final polishing filter.

- Replace annually.

RO Membrane

TFC90 – Osmonic Desal thin-film composite membrane – 90 lpd

- Replace every 2 - 3 years
